SPLASHBACKS & PANELS

WHAT IS AKRIL?

THE NEW, ENVIRONMENTALLY FRIENDLY WAY TO ADD COLOUR, FUNCTIONALITY AND DURABILITY TO YOUR HOME.

For residential or commercial projects – wet areas, decorative panels and virtually any vertical surface – Akril is brilliant. It's lightweight, cost effective, easy to cut to size and install on site. Best of all, it lets your brilliant ideas shine through.

Akril is manufactured in Australia from an environmentally friendly, highly engineered polymer enhanced with colour. It's 50% lighter than glass and 25 times more impact resistant. Akril is the logical alternative to glass as it won't shatter, crack or chip when hit with force and on average is 40% cheaper to install. It is extremely DIY friendly and easy to install with only standard power tools required for installation.

With its high impact resistance Akril won't scratch easily and will not grow bacteria making it the perfect solution for high use areas such as kitchens where food is prepared, laundries, bathrooms, shower walls as well as your entertaining areas.

Akril is an extremely high gloss quality, durable product that is abrasion resistant. Should you scratch or damage Akril in some way, you will be confident in the knowledge that any scratches can be easily buffed out and returned to Akril's original finish.

Akril's ease of reparability in being able to simply return the product back to its original form, is a unique feature of the product.

You will be able to transform almost any vertical surface into a beautiful feature in and around your home.

- Can be colour-matched to suit (depending on project scale)
- Scratch resistant
- Scratches can be polished out
- Easy to work– easy to install
- Higher heat distortion (up to 80° Celsius)
- Lighter, more cost-effective than painted glass
- Environmentally friendly: recyclable/lower energy than glass to produce
- 100% recyclable
- Builders have on-site control
- 25 times more impact resistant than glass
- Available in various sizes
- No grout to clean
- Highest chemical resistance in category

AKRIL STOCK SHEET SIZES

LENGTH	WIDTH	THICKNESS
2440mm	1220mm	6mm
3050mm	725mm	6mm

AKRIL NON STOCK SHEET SIZES

LENGTH	WIDTH	THICKNESS
2000mm	920mm	4 / 6mm
2440mm	900mm	4mm
2440mm	1220mm	4mm
3050mm	1220mm	6mm

NOTE: Please allow 10 working days for all non-stock sizes + delivery times to regional areas

AKRIL GLASS FILLER PANELS FOR PAINTED SPLASHBACKS

HEIGHT	WIDTH	THICKNESS
200mm	600mm	6mm
650mm	600mm	6mm
730mm	600mm	6mm

HEIGHT	WIDTH	THICKNESS
200mm	900mm	6mm
650mm	900mm	6mm
730mm	900mm	6mm

All Akril glass filler panels are made to order. We recommend Akril & the Akril filler panels are ordered at the same time. PLEASE NOTE: Due to the different material substrates, Akril glass and Akril will appear slightly different.

SPLASHBACKS & PANELS AKRIL BRILLIANT COLOUR RANGE

We have a range of twenty designer colours available in a striking gloss finish. We are also able to colour coordinate to your requirements if you have a large project with specific colour needs.

5 X METALLIC COLOURS

15 X SOLID COLOURS

SPLASHBACKS & PANELS

THE AKRIL SOLUTION

AKRIL IS A HIGHLY ENGINEERED POLYMER, ENHANCED WITH COLOUR, THAT OFFERS A NEW SOURCE OF DESIGN INSPIRATION.

This durable panel was originally developed as a cost effective alternative to painted glass- but its qualities of versatility, flexibility and workability allow it to stand alone in a range of domestic, commercial and display situations.

Having half the weight and being more cost effective than painted glass is a great start- but Akril has so much more going for it. It's ready availability and ease of installation reduces lead times and delays. It has higher heat distortion than conventional polymers (up to 80° Celsius) which means it has more applications. What's more, scratches can be polished out.

In so many ways, 'brilliant' is the only word that can sum up Akril's great qualities so completely. From the lustre of its surface to the depth of its colour.

Brilliant!

From its versatility and durability, to its extraordinary practicality on site.

Now, that's truly brilliant.

NO GROUT MAKES CLEANING EASY!

Simply use standard non abrasive household cleaners to keep your Akril panels clean. No harsh scrubbing required.

Environmentally friendly, Akril comes in a range of designer colours and finishes that are at home in virtually any vertical application; straight, shaped or curved. Let your imagination loose in showers, bath surrounds and laundry walls.

That's brilliant.

AKRIL SELECT

25 DESIGNS TO BRING NEW LIFE TO YOUR HOME

NOTE: Not all Select designs are available in all sheet sizes.
All Select colours are non-stock

SPLASHBACK PANEL SIZE

HEIGHT	WIDTH	THICKNESS
725mm	2440mm	6mm

SHOWER WALL/WALL PANEL SIZE

HEIGHT	WIDTH	THICKNESS
2000mm	920mm	6mm
2000mm	1220mm	6mm
2440mm	1220mm	6mm

AKRIL GLASS FILLER PANELS FOR SELECT SPLASHBACKS

HEIGHT	WIDTH	THICKNESS
650mm	600mm	6mm
730mm	600mm	6mm

HEIGHT	WIDTH	THICKNESS
650mm	900mm	6mm
730mm	900mm	6mm

PLEASE NOTE: All Akril select filler panels are non stock and must be ordered at the same time as Akril select.
Due to the different material substrates, Akril glass select and Akril will appear slightly different.

NOTE: When joining an image please do not mix sheet sizes. The sheet size must be the same for the image to follow continuously across two sheets. For single sheet purchases please note the image is scaled down to suit and may not include the entire image.

USING AKRIL BEHIND COOKTOPS

INDUCTION, ELECTRIC & CERAMIC COOKTOPS*

AkriL is used directly behind electric and induction cooktops, reducing time and hassles associated with colour back glass. AkriL's engineered polymer is durable and repairable at the same time.

*Warranty will be void if AkriL comes into direct contact with cooking apparatus or exposed to prolonged radiant heat and not installed as per manufacturers specification. Please refer to website for full installation manual and warranty.

GAS COOKTOPS*

For gas cooktops we recommend a minimum 200mm clearance from the periphery of the gas burner to the AkriL splashback as per the AS/NZS standards, AS/NZS 5601.1:2010 Domestic Kitchen Assemblies—Installation Australian standards require the use of a minimum 150mm high non combustible material behind any gas cooktop. The use of a colour matched AkriL glass panel is perfect for this giving a seamless colour finish. Alternatively stainless steel or tiles behind the cooktop can also be used. That's brilliant.

PLEASE NOTE: The AkriL colour & the colour matched glass panel will always show some colour variation due to the painting of different materials. All AkriL panels that require a colour matched glass panel are ordered as a special order and at the same time. This ensures the colour of the panels & the glass are painted at the same time. Please allow 10-12 working days plus freight times.
